The Beretta Model 948 is a .22 Long Rifle version of the Model 1934 which was Italy's service pistol during WWII. The 1934 was available in .32 ACP or .380 ACP and manufacture of the 1934 began in you guessed it 1934. The 948 was produced in the mid-1950's and was offered with a 3.5 inch barrel or a less common 6 inch barrel.

Price guide for BERETTA MODEL 948 SEMI AUTOMATIC PISTOL 22

The Beretta M1934 and it's offspring the M1935 and the 948 have long been among my favourite pistols, along with the Colt 1911. This immediately tells you that I must be "an old fashioned guy with an old fashioned mind" and you would be entirely correct in that assumption.

Beretta M1934, M1935 and 948 - Revivaler

Description: Beretta model 948. 22 LR caliber. 3 1/2 inch barrel. 10 round magazine. About 20% of bluing worn, but still a nice shooter.

Beretta Pricing and Reference | Gun Digest

Beretta 948 Hi. Take out the mag, put on the safety and lock the slide open. From the front of the bbl, push the bbl straight back toward the rear. You may have to "help" it with a mallet. Lift out the bbl from the rear through the top of the slide. Release the safety and just run the slide forward and off. You can do it! Last edited: Feb 17, 2007. GeorgeR, Feb 17, 2007 #2.
