1800 or 2 litre ? Only the 2.0 engine features oil cooling jets which spray oil over the base of the pistons and of course the 2.0 will ultimately produce more torque/power when tuned. But using a 2.0 engine pushes up the costs a little as its more expensive to buy 2nd hand usually, and requires a change of sump and oil pickup pipe. Identifying your 2.0 Zetec engine is quite easy, though not obvious when the engine is covered in manifolds and grime. First, the engine number starts with the ...

Step By Step Zetec Installation - Page 1

We recommend starting with 2.5 ms dwell for stock Zetec coils. Direct Coil Control Distributorless Ignition on a Megasquirt-II V3.0 or V3.57 Board. Using MS2/Extra firmware, version 2.0.0 or higher. These mods use two BIP373 mod kits. Hardware mods required: Build the VR conditioner circuit, as described in the MSEXtra MS2 Manual. All our preassembled Megasquirts with the V3.0 or V3.57 board come with this circuit installed.

How to MegaSquirt Your Ford Zetec Engine - DIYAutoTune.com

The Zetec stat housing is plastic so the temp sender has 2 terminals as it can't earth through the stat housing, but the Zetec sender is the wrong valve for the Mk2 Fiesta dash so fit the CVH sender with an M10 crimp tag and a M10 spring washer (preferably stainless steel) under the sender body with a wire connecting it to the cylinder head close by.

Fitting a Zetec engine in a Mk2 Fiesta.

Ford EEC-IV wiring (1993 Mondeo, Zetec 2.0) I plan on running Zetec 2.0 with the standard engine loom and stock engine management. On various forums the Ford EEC-IV is complimented as being smart enough to be useful and practical, but simple enough not to cause too much trouble.

Ford EEC-IV wiring (1993 Mondeo, Zetec 2.0) - Haynes Forums

A system based on the above equipment provides around 33 Bhp more than the standard 2.0 litre Zetec whilst maintaining fuel economy and low emissions. Engine Management Units. There are many engine management units available; however the two main user programmable ones in use on kit cars with the Zetec engine are the Emerald and the Omex.

Ford Zetec Tuning - RACELINE

If opting for a 2.0 Zetec flywheel, you will require a standard 2.0 Zetec clutch and a clutch release bearing from a 1971-88 Ford Transit 2.4/2.5 diesel (Quinton Hazell part CCT303). The 1.6 and 1.8 litre Zetec flywheel can also be used and, as stated above, these are around 1kg lighter than the one from the 2.0 litre engine.

Ford Motor Company used the Zetec name on a variety of inline 4-cylinder automobile engines. It was coined to replace "Zeta" on a range of 1.6 L to 2.0 L multi-valve engines introduced in 1991 because Ford was threatened with legal action by Lancia who owned the Zeta trademark. The company used the name widely in European advertising and later introduced it to the North American market with the Contour. The Zetec name was so recognized that Ford decided to apply it to other high-tech four-cylind

Ford Zetec engine - Wikipedia

Engine. Whilst the 2.0 litre engine may provide the most power from the Zetec-E engine range, don't discount the lower capacity variants as the 1.6 and 1.8 models are generally a lot cheaper from a scrap yard than the 2.0 litre engine. For an early 1.8 litre engine, you should be looking at paying around £ 250 - £ 300. Fuelling

Ford Zetec - On A Budget

The engine is a rebuilt 2.0 Zetec engine with mild porting. The throttle bodies were built by DanST and the ecu in an Omex 600 with their loom which has been programmed for IVA pass on 1993 non cat engine. Fitted to a Type 9 standard gearbox with 1.8 Zetec flywheel and new clutch, the diff is 7" Sierra all of which run very well.
