618 Surface Grinder

Overview This model has a wire rope type grinding table where the bottom of the table slide way travels along the top of the

Download Free 618 Surface Grinder

saddle way. Since both slide ways are in full contact along the entire travel distance, it gives adequate support to the grinding process.

SG-618 | Sharp Industries Inc.

The KOL-618 High Precision Surface Grinder has longitudinal and cross slide

Download Free 618 Surface Grinder

ways that are precision handground and then laminated with Turcite-B. This provides a smooth, even travel with low wear. A full support system maintains accuracy during table reversing and full length of travel. Main components include base, column and saddle.

The 618H is a hand feed grinder which may or may not be a roller way and it is much newer machine, probably from the late 1950's to 1980's. These grinders had enclosed ways and a 1 horsepower Pope or Excello cartridge spindle as typical with many other modern grinders of this size.
