Anatomy: Gross (macroscopic) anatomy is the study of body parts visible to the naked eye, such as the heart or bones. Histology is the study of tissues at the microscopic level. Cytology is the study of cells at the microscopic level. Physiology: Neurophysiology is the study of how the nervous system functions.

### A&P Exam 1 study guide - Weebly

Description. Get some extra help mastering core terms, concepts and processes related to the anatomy and physiology of the human body with this comprehensive study aid! Study Guide for Anatomy & Physiology, 9th Edition provides a variety of chapter activities and questions — including crossword puzzles, word scrambles, and questions in the multiple choice, true or false, labeling, matching, and application formats — to help you apply concepts and test your A&P knowledge.

### Study Guide for Anatomy & Physiology — 9th Edition

The chapters in the Study Guide mirror the chapters in the textbook. Multiple choice, matching, true-false, fill-in-the-blank, and completion questions; there are over 1,200 question in all. Apply What You Know sections encourage critical thinking and application of core content. Crossword puzzles, word scrambles, and other similar "mind-testers" make learning basic anatomy and physiology fun.
