Antenna Theory Ysis And Design

D Systems DDD recently announced that it has entered into a new collaboration with Fleet Space Technologies – the only space company in Australia to design, build and launch commercial Nano Satellites ...

3D Systems (DDD), Fleet Space Tie Up for RF Antenna Design
Computers are sometimes kept disconnected from the internet, or "air gapped", to avoid remote hackers gaining access to steal data, but now there is a way to use a hard drive cable to transmit informa ...

Hackers can turn computer cables into antenna to steal sensitive data
Antenova Ltd, the UK-based manufacturer of antennas and RF antenna modules for M2M and the IoT, announces a new and smaller SMD antenna for 5G and 4G frequencies. The antenna is named Minima, part ...

Antenova Launches Minima, A Small-Space Antenna For 5G And LTE
D Systems' Application Innovation Group assisted with process
development, bridge production, technology transfer of additively
manufactured radio frequency (RF) patch antennas for small satellite
...

3D Systems Partners with Fleet Space Technologies to Enable
Production of Patch Antennas for Next Generation Satellites
Impulse Space, Inc. – leading the development of in-space
transportation services for the inner solar system – today announced
a groundbreaking partnership and launch mission with Relativity
Space, ...
