ARCO GRE/GMAT Math Review 6th Edition (Gre
Gmat Math ...

It is a good math review book but not
sufficient in itself for getting ready for
the GMAT or GRE. The problem explanations are
very good. I recommend it if you are weak in
math and need to brush up. Barron's prep
courses for the GMAT/GRE are better but if
you are weak in math, this book is a better
place to start before moving on to other prep
courses such as Barron's.
