Awakenings is the remarkable account of a group of patients who contracted sleeping-sickness during the great epidemic just after World War I. Frozen in a decades-long sleep, these men and women were given up as hopeless until 1969, when Dr. Sacks gave them the then-new drug L-DOPA, which had an astonishing, explosive, "awakening" effect. Dr. Sacks recounts the moving case histories of these individuals, the stories of their lives, and the extraordinary transformations they underwent ...

Awakenings by Oliver Sacks - Goodreads

Oliver Sacks (who died this year) was very vocal about the way he thought doctors came up short when dealing with patients, aka human beings. He railed against them for treating people separately from their disease, and treating a disease, e.g. cancer, like it was the same for every patient.

Awakenings and amphetamines: Moving Oliver Sacks ...

Oliver Wolf Sacks, CBE FRCP was a neurologist, naturalist, historian of science, and author. Born in Britain, and mostly educated there, he spent his career in the United States. He believed that the brain is the "most incredible thing in the universe". He became widely known for writing best-selling case histories about both his patients' and his own disorders and unusual experiences, with some of his books adapted for plays by major playwrights, feature films, animated short films, opera, danc

Oliver Sacks - Wikipedia

Called the "poet laureate of medicine" by The New York Times, Sacks is the author of thirteen books, including The Man Who Mistook His Wife for a Hat, Musicophilia, and Awakenings, which inspired an Oscar-nominated film and a play by Harold Pinter.
