Candidates are required to use the AWS D1.1 Structural Welding Code - Steel to answer the questions. Candidates may not use photocopied versions of the standard unless they can supply evidence of purchase of the document. Successful candidates must correctly answer 72% of the questions to receive this endorsement.

## ~~AWS D1.1 Structural Welding - Steel : Certification ...~~

AWS Structural Welding Code for Steel. AWS D1.1:2020 contains the requirements for fabricating and erecting welded steel structures. In addressing these requirements, this code takes a comprehensive approach in outlining specific connections and welds, such as groove welds, fillet welds, and plug and slot welds, and it also touches upon numerous other considerations, such as fatigue stress design parameters and prequalified welding procedure
