Explosion at Texas City Refinery || ViralHog BP Texas City Animation - Spanish *Bp Texas City Incident*

The Texas City Refinery explosion occurred on March 23, 2005, when a hydrocarbon vapor cloud was ignited and violently exploded at the ISOM isomerization process unit at BP's Texas City refinery in Texas City, Texas, killing 15 workers, injuring 180 others and severely damaging the refinery. The Texas City Refinery was the second-largest oil refinery in the state, and the third-largest in the United States with an input capacity of 437,000 barrels per day as of January 1, 2000. BP acquired the T

*Texas City Refinery explosion - Wikipedia*

At approximately 1:20 p.m. on March 23, 2005 at BP Texas City, a series of explosions occurred at the BP Texas City refinery during the restarting of a hydrocarbon isomerization unit. Fifteen workers were killed and 180 others were injured. Many of the victims were in or around work trailers located near an atmospheric vent stack.

A detailed study of the events leading up to the BP Texas City refinery explosion of 2005. Litigation is still ongoing for this incident, which was preventable.

*BP Texas City Explosion - YouTube*

On March 23rd, 2005, during the startup of an isomerization (ISOM) unit, the BP Texas City Refinery, Texas, experienced an industrial disaster. A massive explosion and fires killed 15 people and injured another 180. A key factor was the siting of temporary occupied trailers close to a process unit handling highly hazardous materials (the CSB noted that all fatalities occurred in or around trailers).
