Sample Size Calculations in Clinical Research
Shein-Chung Chow, Hansheng Wang, Jun Shao The
authors of this book have a great deal of
clinical trial experience in the
pharmaceutical industry as well as strong
academic backgrounds. For the clinical trial
statistician there is now a rich supply of
software products to aid in the determination
of sample size for a variety of modeling
situations.

Sample Size Calculations in Clinical Research / Shein ...

Chair: Shein-Chung Chow (FDA) Speaker: Chao Wang (FDA) ... In our proposed unblinded sample size re-estimation strategy, the new total sample size is calculated from the exact power function for the one stage using the estimated variance from the observed data of an internal pilot study (Stage 1) as the true variance. If the number of additional

*Sample Size Calculations in Clinical
Research, Second ...*

Sample size calculation plays an important role in clinical research. It is not uncommon, however, to observe discrepancies among study objectives (or hypotheses), study design, statistical analysis (or test statistic), and sample size calculation. Focusing on sample size calculation for studies conducted during the various phases of clinical resea
