Computer Based Numerical And Statistical

By joining statistical analysis with computer-based numerical methods, this book bridges the gap between theory and practice with software-based examples, flow charts, and applications. Designed for engineering students as well as practicing engineers and scientists, the book has numerous examples with in-text solutions.

Computer-based Numerical and Statistical Techniques ...

Suggest a value of constant k , so that the iteration formula $x = x + k(x^2 - 3)$ may converge at a good rate, given that $x = 3$ is a root. Sol. Formula $x = f(x)$ where $f(x) = x + k(x^2 - 3)$ will converge if $|f'(x)| < 1$ or $-1 < f'(x) < 1$. i.e., if $-1 < 1 + 2kx < 1$

Read Book Computer Based Numerical And

Moreover, the convergence will be rapid if
 $f'(a) \neq 0$.
