CORPORATE PROFILE - EIZO

EIZO is Japanese for image. Founded in 1968, we develop and manufacture high-end visual solutions to meet the specialized needs of customers in business, creative fields, healthcare, air traffic control, maritime, security & surveillance, and more. While the customers we serve are many, our mission is always the same: to create total imaging solutions that enrich people in their ...

Corporate Information | EIZO

EIZO entered into a definitive agreement with eg-electronic GmbH of Wolfratshausen, Germany to acquire the latter's business units for industrial monitors, air traffic control monitors, and monitor control boards. The acquisition was finalized in February 2009 and a new subsidiary, EIZO Technologies GmbH, in Wolfratshausen, Germany, officially began operations.

Company History | EIZO

ICC profiles are files that describe color characteristics on a per-device basis, in a format established by the International Color Consortium (ICC), an international standards organization. ICC profiles include both color profiles and monitor profiles. Color profiles define color characteristics for devices and image data.
