Cost Studies of Buildings - WordPress.com

Cost control in building design and construction. A development budget study is undertaken to determine the total costs and returns expected from the project. A cost plan is prepared to include all construction costs, all other items of project cost including professional fees and contingency. All costs included in the cost plan will also be included in the development budget in addition to the developer's returns and other extraneous items such as project insurance, surveys and agent's ...

Cost Studies of Buildings - ResearchGate

Costs are all at Q3 2016 prices, exclude fees, VAT, project contingency and furniture, fixtures and equipment/AV allowances etc. and are based on construction in Central London to enable direct comparison with Building 2. The study recognises the importance of considering all elements of the total building cost, not simply the cost of the structure as some elements are affected more by the choice of structural frame than others.

Cost Studies of Buildings - Allan Ashworth - Google Books

The replacement cost of sixties buildings in English universities alone is estimated to be 11bn. Because there are significant backlog repair and maintenance issues associated with many of these buildings, universities may shortly find themselves forced to make difficult replace-or-refurbish decisions in connection with a large number of their buildings.
