Course Chemical Technology Organic Module Vi might not make exciting reading, but Course Chemical Technology Organic Module Vi comes complete with valuable specification, instructions, information and warnings. We have got basic to find a instructions with no digging. And also by the ability to access our manual online or by storing it on your desktop, you have convenient answers with Course ...

Course Chemical Technology Organic Module Vi

Organic Chemistry [60 hours] The module covers the fundamentals of organic chemistry. Topics include nomenclature, and the chemistry of alcohols, alkanes, alkenes, amines, carboxylic acids and their derivatives. Types of chemical reactions of related functional groups of organic compounds are also covered. Emphasis will be placed on the ...
