DAF was also one of the first to introduce an intercooled turbocharged diesel engine into their lorries, which in these years became very evident with their 3600. Their largest 11.6-litre (710 cu in) six cylinder turbodiesel was based on the old Leyland O.680 motor. It was to be DAF's standard large engine long into the nineties.

### DAF Trucks - Wikipedia

DAF applies various exhaust gas aftertreatment technologies like a SCR catalyst and an active particulate filter. Since the temperature and the composition of the exhaust gases is managed so well, optimum integration of the engine with the exhaust-gas posttreatment

PACCAR PX-4 engines - DAF Trucks

Diesel Injectors. The DAF CF is a truck range that was originally launched in 1998. All versions of the Dutch manufacturers vehicles are assembled at Leyland Trucks UK. This truck range has a good reputation among drivers for its high fuel efficiency and low costs. The design of the truck is standard, it succumbs to the heavy duty nature of the truck so there is no special styling fitted.
