Delirious by M.S. Force is the sixth book in the Quantum series. Although many would say it could be read as a stand alone novel, I think the entire series should be read first because it gives the reader a better understanding and background the Quantum family dynamics, The Quantum club, and part of the Aileen's journey to present day.

Delirious, A Quantum Novel OMG Marie, you never cease to amaze me. Another 5 star book in my humble opinion. I cried 3 times and I'm pretty stoic overall. I couldn't put the book down. I was late for work twice, church once and picking up my daughter at work once. She understood once she got in the care and said, "One of Marie's books again?"
