The Design &
Engineering Process 1.

Define The Problem.

You've already seen the
problem you're solving

AND the solution in
your head; you know

your product is going to
change the world. In the

first phases of the idea
design and engineering

process, you have to
answer some tricky

questions.

~~Engineering Design by~~
...

Engineering design is
“design under
constraint.” Designers
must choose solutions
that include the most
desired features and
fewest negative
characteristics. But they
must stay the limitations
of the given scenario,

Read PDF Designing And

which could include time, cost, and the physical limits of tools and materials.

Engineering design is systematic and iterative.

~~What is Engineering Design?~~

~~Link Engineering~~

Amongst other more detailed findings, a recent work sampling study found that design
