Experts from AspenTech, Emerson, Honeywell, Novum Automation, Phoenix Contact and Rockwell Automation weigh in on IIoT essentials ...

Focus on data tasks to define IIoT
According to the team, with the container market expected to reach \$2.7 billion by 2020, developers need a programming model for distributed computing ... and elastic applications is too hard.

SD Times Open-Source Project of the Week: Akka
Major trends around cloud technology, virtualization, and mobile you could see coming, but a novel distributed computing model ... it also opens up applications with unique characteristics.

Blockchain breakthroughs: A tech revolution told in whitepapers
In this episode, Marco Valtas, technical lead for cleantech and sustainability at ThoughtWorks North America, discusses the Principles ... look on how the grids are distributed.

Principles of Green Software Engineering with Marco Valtas
For this era to flourish, we need to embark on the second wave of digital transformation. Many companies dove into the first wave of digital transformation when they invested in information technology ...

The Second Wave Of Digital Transformation: The New Intelligent Machine Economy Calls For Modern Ways Of Development
On 15 July, techUK hosted a webinar bringing together industry leaders to explore the convergence of Cloud and Edge in 2022 and beyond.

Event round-up: Digital transformation: Unlocking value at the Edge of the Cloud
Things move quickly in the world of real-time streaming. In some cases, companies want to track millions of events per second. Staying on top of these ...
