## Marte, D. / Earth Science Regents Review Sheets

A large body of air with the same characteristics of temperature and moisture content is known as an air mass. An air mass receives its characteristics from the location it forms, known as its source region. Fronts represent the advancing edge of the air mass at ground level. Only low pressure systems have fronts, due to air masses converging at the low pressure.

Earth Science is a course designed to broaden the knowledge of the student about Earth and its surrounding systems. This course will focus on areas of the Earth ' s changing surface, history, air and water, and astronomy. Through different learning strategies and lab investigations, students will develop an appreciation of the world we live in.
