Non-market activity within the family: Gary Becker, biography from the Concise Encyclopedia of Economics One of Becker’s insights was that a major cost of investing in education is one’s time. Possibly that insight led him to his next major area, the study of the allocation of time within a family.

Competition and Market Structures - Econlib

Market structure is best defined as the organisational and other characteristics of a market. We focus on those characteristics which affect the nature of competition and pricing – but it is important not to place too much emphasis simply on the market share of the existing firms in an industry. tutor2u 115K subscribers
