Edf R D

EDF R&D, an innovation accelerator for your projects R&D is at the heart of EDF Group's major challenges. It covers all trades and activities of the energy sector. It provides day-to-day support to the business lines and subsidiaries in line with the EDF Group's Cap 2030 project.

---

Energy research and development –  
EDF Group

## Online Library Edf R D

EDF group invests in the development of renewable energies worldwide to double our installed renewable energy capacities, between 2014 and 2030, and reach 50 GWe in 2030. Significant investments to decarbonise the energy system Over 90% of EDF group's net investments contribute to the decarbonisation of the electricity system.

---

### EDF Group's raison d'être

The EDF Group is active in the entire value chain of the electric industry, including R&D, project development, generation, trading, transmission, distribution, sales, and services.

Recently, a marked increase in the use of renewables is bringing change to its electricity generation operations.
