Elementary Statistics – Practice Test – Chapter 3 Problems #1 through #9 use the data summarized in the table below. A random sample of 97 male and female college student grades for a math class were gathered, and these are summarized in the table below. The letter grade " D " represents any substandard grade (D, F, or W). Compute

Elementary Statistics – Practice Test—Chapter 3

Q. Give the name of the sampling method. I stand outside the library to ask students their opinion of library services. I decide to sample every 25th student that comes out until I get a sample of 15. I randomly choose a number between 1 and 25 (for argument sake lets say it turns out to be 16) So I sample the 16th student that comes out and the 25th student that comes out.

Elementary Statistics Chapter 1 Test Flashcards | Quizlet

Use the vocabulary associated with descriptive statistics. 2. Recognized the differences between sampling techniques. 3. Identify errors in statistical design. 4. Analyze and interpret frequency tables. Before you work on this homework assignment it is recommended that you participate in or watch the webinar on this chapter, read the material on this chapter from the textbook and ask your instructor, a tutor, or fellow students for help when there is a concept that is unclear to you.
