Why you should check your DNA test results again | To the Point  
Content will cover aspects from advances in genetic engineering technologies to the plethora of applications ... A new method that increases the signal from CRISPR-based diagnostic tests, removing the ...

CRISPR and Genome Editing  
The most common analytical method within population genetics is deeply flawed, according to a new study from Lund University in Sweden. This may have led to incorrect results and misconceptions about ...

Study reveals flaws in popular genetic method  
To better understand the underlying mechanisms, a team of scientists at EPFL's Laboratory of Virology and Genetics (Trono Lab ... contextualize the disease to answer very concrete questions ...

Genetic discovery could improve treatment of colorectal cancer  
the answer is yes. How would this be done? Through some clever genetic engineering. Take some of the genetic material we have from Tasmanian tigers - which will be possible, since the extinction ...

Scientists, Hemsworths want to resurrect extinct Tasmanian tigers  
New telescope missions are bringing us closer to answers, but it takes time ... From drug-carrying nanorobots to genetic and tissue engineering, biomedical engineers build the technologies ...

These Are the Degrees of the Future  
This article is from Carson Barrett, a junior biochemical engineering major minoring in genetics ... Albeit not the worst answer, I was crushed. Tears began to roll down my face.

Feeling rejected: Making the most of my second-choice school  
He had recently undergone a PSA (prostate-specific antigen) test and registered a count ... Then they will use genetic-engineering techniques to produce markers that can identify tumors that ...

The Man's Cancer  
Some mice grew much faster than usual but seemed more anxious and physically slow in open-field tests ... allows for more creative genetic engineering that may answer many scientific questions.

Researchers combine chromosomes in mice  
Rady Children's Institute for Genomic Medicine (RCIGM) today announced the publication of a study in the American Journal of Human Genetics (AJHG) describing a scalable prototype for newborn screening ...

Novel newborn screening system uses rapid whole genome sequencing to screen and diagnose genetic diseases  
The disorder is caused by a genetic defect in the Huntingtin (HTT) gene, in which the first protein-coding portion of the gene, or first exon, is abnormally expanded. HTT transcripts are processed ...
