Guide To The Data Sheet

As a former engineer on the

receiving end, as well as

someone who's written them

in marketing, data sheets

are 1-, 2- or 4-sided

documents with a photo of a

product, a bullet-point

description of features,

performance tables,

dimensioned illustrations

and ordering details.

A Complete Guide To Creating

Engineering Data Sheets 2018

It should be noted that data

Acces PDF Guide To The Data Sheet System

sheets are only a summary of technical features and data presented in an organised and systematic manner, for the purpose of obtaining, in addition to the bids: (a) answers from all the bidders organised in the same fashion; (b) a quick understanding of the compliance of each bidder with key requirements; and (c) a consistent tabulation of plant data to facilitate bid evaluation.
