~~Guidelines For Laboratory Reports Nd~~

All medical diagnostic laboratories are required to report any laboratory test result (serological, culture, etc.) which may be interpreted as indicative of any of the reportable conditions to the state department of health. Test results from specimens sent by in-state laboratories to out-of-state laboratories are also required to be reported.

while others will request a separate report. Here's a format for a lab report you can use if you aren't sure what to write or need an explanation of what to include in the different parts of the report.

~~How to Write a Lab Report – Steps and Template~~

Individuals with a negative test result will be notified within 48-72 hours, but may vary depending on a variety of factors (e.g. the time required to get the sample to the lab, number of samples that need to be tested, etc).

Abstract. Specifications for selected feedstocks that are commonly found in the National Energy Technology Laboratory (NETL)-sponsored energy system studies are summarized in NETL's "Quality Guidelines for Energy System Studies" (QGESS).
