Coal stocks have been overlooked over the past few years, mostly due to the green energy wave. Consequently, these stocks are also considerably undervalued based on forward sales and cash flow ...

### The 3 Best Coal Stocks to Buy Now

DURHAM, N.C. -- An analysis of sediments from five North Carolina lakes near coal-burning power plants has found that coal ash pollution of surface waters has been more persistent and widespread ...

### Lake sediments show decades of coal ash contamination

SABINAS, Mexico, Oct 1 (Reuters) - Each time Juan Briones descends deep into the ground of northern Mexico to dig for coal he knows he must balance earning a living and avoiding death. In August ...

### Deep underground, Mexican coal miners remember those who never came back

German energy company RWE says it will phase out the burning of coal by 2030, saving 280 million metric tons of climate-changing greenhouse gas emissions BERLIN -- German energy company RWE said ...

### German energy company RWE to end coal use by 2030

Over the last year and a half, the renaissance of coal - both kinds - has been gobsmacking. No one saw coal prices of \$400 to \$600 per tonne coming, including those in the coal industry.

### Coal price renaissance: how long can it last?

RWE AG said Tuesday that it will phase out the use of coal for electricity generation sooner than expected as part of an agreement with the German government. The German energy company said it ...

### RWE to Phase Out Coal by 2030

Case in point: coal ash, a byproduct of burning coal. A new study from Duke and Appalachian State universities finds that coal ash is contaminating our lakes and rivers. And climate change-driven ...

### Study finds persistent coal ash pollution in lakes

Wyoming's coal communities could benefit from economic measures already being enacted by some other states, according to a pair of reports from RMI. The clean energy research group, formerly ...

### Coal communities need more state support, think tank says

Nearly a year after the spot price of Powder River Basin coal suddenly tripled, it remains higher than before the spike and ticked upward again last week. It's too soon to be sure whether the ...

### Coal prices high, could rise further as cold descends

The clamor of second graders breaking away from lessons to form lunch lines has gotten quieter in a rural New Mexico community, where families losing coal jobs have been forced to pack up and ...

### Coal power plant closure leaves schools underfunded, hundreds unemployed in NM

STORY: In his twenty-one years of mining coal in Mexico's northern state of Coahuila, Juan Briones knows each time he descends the narrow shaft, he's risking death to make a living. "When you're ...

### Meet the coal miner risking it all in Mexico

Oct. 4 (UPI) --German energy company RWE said Tuesday it will abandon coal eight years earlier than planned, but it will have to extend the life of other plants to the consternation of climate ...

### Germany's move away from coal comes with a twist

Updated at 7:15 p.m. Coal ash pollution may be more widespread in North Carolina than previously thought, according to a new study published Monday by researchers at Duke University and ...

### New study suggests coal ash pollution more widespread than previously thought

WARSAW, Sept 29 (Reuters) - Poland has suspended a ban on use of lignite for heating homes until April of next year to ease the supply crisis that has plagued the European Union's biggest coal ...
