## Implementasi (PDF) Penerapan Algoritma Best Algorithm Dijkstra Path Planning untuk Penentuan Jalur...

Abstract. A-Star is a path finding algorithm that combine Uniform Cost Search and Greedy-Best First Search. Uniform Cost Search will choose the smallest cost from start to goal, while

# Bookmark File PDF

Greedy-Best First Search uses a heuristic function to estimate the cost required from start to goal. This research aims to implement A-Star algorithm to find the fastest path for hexapod robot navigation.
