Influence: Science and Practice: Amazon.co.uk: Cialdini ...

Influence: Science and Practice (ISBN 0-321-18895-0) is a psychology book examining the key ways people can be influenced by "Compliance Professionals". The book's author is Robert B. Cialdini, Professor of Psychology at Arizona State University. The key premise of the book is that in a complex world where people are overloaded with more information than they can deal with, people fall back on a decision making approach based on generalizations.

Influence: Science and Practice - Wikipedia

Here's what people are saying about the material in INFLUENCE: Science and Practice: "This marvelous book explains in clear, practical language the ways in which we become persuaded. It offers excellent insights for those who sell, but even more importantly for all of us who negotiate and buy." -ROGER FISHER, Director, Harvard Negotiation Project, Co-author of "Getting to Yes."

Dr. Robert Cialdini has spent his entire career researching the science of influence earning him an international reputation as an expert in the fields of persuasion, compliance, and negotiation. His books including, Influence: Science & Practice, are the results of years of study into the reasons why

people comply with requests in business settings.

Influence: The Psychology of Persuasion by Robert B. Cialdini

Influence: Science and Practice is an examination of the psychology of compliance (i.e. uncovering which factors cause a person to say "yes" to another's request). Written in a narrative style combined with scholarly research, Cialdini combines evidence from experimental work with the techniques and strategies he gathered while working as a salesperson, fundraiser, advertiser, and in other positions inside organizations that commonly use compliance tactics to get us to say "yes."
