The history of the world is the memory of the past experience of Homo sapiens sapiens around the world, as that experience has been preserved, largely in written records. By "prehistory", historians mean the recovery of knowledge of the past in an area where no written records exist, or where the writing of a culture is not understood.

*History - Wikipedia*

In this Introduction we shall bring out these two points of view in order to orient ourselves regarding the manner in which the history of philosophy is to be handled in these lectures. These two points of view provide a path to a third, to a division which permits a general overview of the total historical process.
