Standards and EVs | BSI

EVS is the national standards body in Estonia. Since Estonia is a  
member of the European Union they will publish ISO / IEC and CEN /  
CENELEC standards with the "EVS-" prefix added to the front of the  
designation See examples below. Example A - ISO Standards (the  
standard identification number 12345 and the Euro amounts are  
fictitious)

ISO 15118 enables the integration of EVs into the smart grid (aka  
vehicle-2-grid or vehicle-to-grid). A smart grid is an electrical grid  
that interconnects energy producers, consumers, and grid components  
like transformers by means of information and communication  
technology, as illustrated in the image below.
