ISO 3103 is a standard published by the International Organization for Standardization, specifying a standardized method for brewing tea, possibly sampled by the standardized methods described in ISO 1839. It was originally laid down in 1980 as BS 6008:1980 by the British Standards Institution, and a revision was published in December, 2019 as ISO/NP 3103. It was produced by ISO Technical Committee 34, Sub-Committee 8. The abstract states the following: The method consists in extracting of solub

ISO 3103 - Wikipedia

This standard has been revised by ISO 3103:2019 Abstract
The method consists in extracting of soluble substances in dried tea leaf, containing in a porcelain or earthenware pot, by means of freshly boiling water, pouring of the liquor into a white porcelain or earthenware bowl, examination of the organoleptic properties of the infused leaf, and of the liquor with or without milk or both.

...

Variations are ISO 0, with no sugar; ISO 2, with two spoons of sugar; and so on. This may derive from the "NATO standard" cup of coffee and tea (milk and two sugars), military slang going back to the late 1950s and parodying NATO's relentless bureaucratic drive to standardize parts across European and U.S. militaries.
