PROGRAMMING (OOP) IN PHP

STEP 1: First thing we need to do
is create two PHP pages: •

Online Library Mastering Object Oriented Php

index.php • class_lib.php OOP is all about creating modular code, so our object oriented PHP code will be contained in dedicated files that we will then insert into our normal PHP page using php 'includes'.

Learn Object Oriented Programming (OOP) in PHP Object-Oriented PHP for Beginners. For many PHP programmers, object-oriented programming is a frightening concept, full of complicated syntax and other roadblocks. As detailed in my book, Pro PHP and jQuery, you'll learn the concepts behind object-oriented programming (OOP), a style of coding in which related actions are grouped into classes to aid in creating more-
