$f(x) = \begin{cases} 2x & \text{if } x \geq 0 \\ 22x & \text{if } x < 0 \end{cases}$ . As  $x$  converges to 0 both from above and below,  $f(x)$  converges to 0, so the function is  $C^1$ . See figure. b) This function is not continuous (and thus not differentiable). As  $x$  converges to 0 from above,  $f(x)$  tends to 1, whereas  $x$  tends to 0 from below,  $f(x) \dots$

Mathematics For Economists: Carl P. Simon and Lawrence E ...

7) Mathematics is the language of economics. Until you are master of the relevant sections, understanding economics will for you be like reading the Ancient Bible and not knowing hebrew. Therefore even if yours economics degree includes maths techniques modules, you will find yourself using maths, you have not been taught yet.
