The Microprocessor-based systems are relatively expensive due to the need for external RAM, ROM, etc. while the microcontroller is a single inexpensive chip that can perform the task on its own.

Differences based on Limited and Upgradeable Memory

~~Difference Between Microprocessor and Microcontroller~~

An integrated circuit that performs the functions as the central processing unit in which the inputs and the outputs are not defined is known as a microprocessor. The chip is programmable which operates based on the applied inputs. The input bits applied are in the form of binary.

~~Microprocessor and Microcontroller (MPMC) Pdf Notes SW~~

A microcontroller is a computer on a chip in which many support devices like RAM, ROM, timers, counters, I/O peripherals are fixed in one IC. Most of the microcontrollers uses RISC architecture. But, some microcontrollers like 8051, Motorola uses CISC architecture. Microcontrollers is mainly designed to control specific electronic applications.

~~Difference Between Microprocessor and Microcontroller~~

Download File PDF Microprocessors And Microcontrollers Architecture Programming

A microprocessor is a multipurpose, programmable, clock-driven, register-based electronic device that reads binary instructions from a storage device called memory, accepts binary data as input and processes data according to those instructions and provide results as output.

A microprocessor is a controlling unit of a micro-computer, fabricated on a small chip capable of performing Arithmetic Logical Unit (ALU) operations and communicating with the other devices connected to it. In this tutorial, we will discuss the architecture, pin diagram and other key concepts of microprocessors. Audience

When a microprocessor is executing a main program and whenever an interrupt occurs, the microprocessor shifts the control from the main program to process the incoming request. After the request is completed, the control goes back to the main program. There are 5 interrupt signals in 8085 microprocessor: INTR, RST 7.5, RST 6.5,
