Monetary Economics An Integrated Approach to Credit, Money, Income, Production and Wealth

~~Monetary Economics | SpringerLink~~

Monetary economics is the branch of economics that studies the different competing theories of money: it provides a framework for analyzing money and considers its functions (such as medium of exchange, store of value and unit of account), and it considers how

## Read Book Monetary Economics An Integrated Approach To Credit Money

money, for example fiat currency, can gain acceptance purely because of its convenience as a public good.
