pumps are able to service a wide range of applications, which can typically include dewatering in the paper industry and vacuum filtering in mineral ore processing.

---

### Large Capacity Vacuum Pumps | NASH Liquid Ring

The NASH SC liquid ring vacuum pump and compressor series is a reliable and flexible alternative to the popular NASH CL series.

Designed as an upgrade to the existing CL models, the SC series delivers proven performance with flexible installation options and reduced maintenance requirements.

The NASH Vectra XL liquid ring vacuum pumps are industrially advanced with patented cone design, rotor configuration, and gas scavenging. Improved cone angles reduce pump length. This feature contributes to the compact design requiring less floor space. Whereas rotor configuration is Nash's conical porting design.
