Try to solve the examples of the book first and then go to numerical problems . You actually don't need solutions as answers are given out there in the book after each numericals. I have solved the book atleast 3 times while preparing for my boards and I assure you that exercise numerical problems are far easier that the problems given in example .

Solving a Numerical on Elasticity of Demand

Introduction: The magnitude of elasticity differs with the method used for its calculation. The demand schedule for a product is given below:

Price (\$)	Quantity Demanded (in units)
3	20
4	15
5	11

~~Answer: Solving a Numerical on Elasticity of Demand~~
