Question: Explain Purpose Of The CMS Nursing Home Compare ...

Why are nursing homes so vulnerable to COVID-19? Older people are at higher risk for COVID-19, the disease caused by the new coronavirus. So are people with chronic medical conditions such as heart disease, diabetes, kidney disease and respiratory illness. Both groups are heavily represented among the nation's 1.3 million nursing home residents.

FAQs About Nursing Homes During the Coronavirus

In nursing homes with outbreaks, most cases are identified within the first two weeks of diagnosing the first new case. These early cases likely occur among people who were previously exposed or were infected before more infection prevention and control
