vast array of technologies to deliver sophisticated solutions.

## Oracle Application Express

Oracle Application Express is the native low code framework of the Oracle Database. Using Application Express, you can easily create modern, responsive, scalable Web applications with minimal effort. With no additional coding, Web apps created with APEX look great on the desktop, tablet or smartphone.

Application Express is a supported feature of the Oracle Database and is included, at no additional cost, with every Oracle Database, both on-premises and in the cloud.

environments for development, testing/QA, and production. For testing and production instances, Oracle Application Express supports the ability to install just a runtime version of Oracle Application Express. This runtime environment minimizes the installed footprint and privileges and improves application security since in a runtime instance developers cannot inadvertently update a production ...

## About the Oracle Application Express Runtime Environment

When you install Oracle Database 12c Multitenant Architecture, Oracle Application Express is installed

# Read Book Oracle Application Express Installation Guide 11g

into the multitenant container database by default. A single multitenant container database can have up to 252 pluggable databases (PDBs). The container database root (CDB\$ROOT) includes an APEX\_040200 schema which holds all of the common objects required for Application Express, including the Application Express engine packages, processes, functions and views.
