Report Builder uses Managed ODP.NET for authoring paginated (RDL) reports. You only need the following steps when using Oracle ODAC drivers 12.2 and later. Otherwise, they install by default to a non-machine-wide configuration for a new Oracle home installation. These steps assume you've installed the ODAC 18.x files to the c:\oracle32 folder where Report Builder is installed.

You must first create a report using the Oracle Reports Developer tool and then deploy it to the Application Server Reports Services. Useful sources of information are the Getting Starting Guide and the Publishing Reports manual. For this example, we will use an example report from the Building Reports manual.
