The Meredith Small article on "Our Babies, Ourselves" reprinted in Applying Anthropology: An Introductory Reader can be a useful follow-up to Body Ritual among the Nacirema. The "Our Babies, Ourselves" article is a very short version of Meredith Small's book by the same name, Our Babies, Ourselves: How Biology and Culture Shape the Way We Parent. The most obvious first lesson, which follows naturally from Horace Miner's Nacirema article, is about how many different ways there are ...

A thought-provoking combination of practical parenting information and scientific analysis, Our Babies, Ourselves is the first book to explore why we raise our children the way we do—and to suggest that we reconsider our culture's traditional views on parenting. New parents are faced with innumerable decisions to make regarding the best way to care for their baby, and, naturally, they often turn for guidance to friends and family members who have already raised children.

Ethnopediatrics--the study of parents, children, and child rearing across cultures--is the subject of anthropologist Meredith F. Small's thorough and fascinating book *Our Babies, Ourselves*. Small asserts that our ideas about how to raise our kids are as much a result of our culture as our biology, and that, in fact, many of the values we place on child-rearing practices are based in culture ...
