Porphyria: The Ultimate Cause of Common, Chronic, and ...

Porphyria may be the ultimate cause of MCS/EMFS/E.I./Universal Food Sensitivities, and numerous common, chronic illnesses. Journal articles detail that tests for porphyria can be inaccurate. Poor tolerance of the Sun--via skin blistering or nervous system reaction--is often due to porphyria.

wellatlast: Fourth Edition

In fact, Dr. Rochlitz (in an earlier book on Porphyria) outlined a mechanism based around the P450 enzymes which describes how porphyria directly and inevitably causes mast cell activation. Thus the two disorders are much more closely linked (and common) than is generally appreciated.
