Reviewed in the United States on August 13, 2009 This is the paperback edition of the hardback Chemistry book by Raymond Chang. The American version and this version are EXACTLY the same, save for the cover picture, ISBN number, and the softcover version. However, the paperback version is much cheaper, for that reason.

Chemistry (9th International Edition): Raymond Chang ... Chang covers the 3 major divisions of chemistry - organic, inorganic and physical. Which accounts for the weightiness of the book. Crammed with material that can keep a diligent student quite busy and, hopefully, appreciative. You are presented with a very refined text, in its 8th edition.
