Rda Guidelines

This is the fifth and final draft of the Recommendations and Guidelines from the RDA COVID-19 working group, and is open for public comment until 8th of June 2020. Following the open period, feedback will be considered and then the WG will seek endorsement of the document from the RDA governance bodies prior to final publication.

RDA COVID-19 Guidelines and Recommendations | RDA

a RDA = Recommended Dietary Allowance, AI = Adequate Intake, UL = Tolerable Upper Intake Level, AMDR = Acceptable Macronutrient Distribution Range, DGA = 2015-2020 Dietary Guidelines recommended limit; 14 g fiber per 1,000 kcal = basis for AI for fiber. b Calcium RDA for males ages 71+ years is 1,200 mg.

According to the Program for Cooperative Cataloging (PCC) Post-RDA Test Guidelines, every element in an RDA 1XX must be coded RDA. PCC disallows a hybrid 1XX field. A common situation will occur with the creation of a new RDA NAR for a subordinate body that resides within a long-standing government agency.

RDA - FDLP

Resource Description and Access (RDA) is a standard for descriptive cataloging initially released in June 2010, providing instructions and guidelines on formulating bibliographic data. Intended for use by libraries and other cultural organizations such as museums and archives, RDA is the successor to Anglo-American Cataloguing Rules , Second Edition (AACR2).
