When it comes to a rifle caliber guide, no list would be complete without the big baller that is the fifty caliber BMG (Browning Machine Gun). Its giant size, insanely long range and incredible knockdown ability makes other calibers look like toys by comparison. This one is good for everything from sniper rifles to semi-automatic machine guns.

Guide to cleaning your gun
Start by taking the gun apart, removing the fore-end and laying it down alongside the stock and barrels.

Firstly look at the barrels. Start by cleaning the breech area and ejectors, pushing them out and, using the toothbrush, sweeping away any dirt and unburnt powder.
