Second Language
Acquisition Rod Ellis

In this book Mr. Ellis
seeks to DESCRIBE the
developments in Second
Language Acquisition
from the 1960's until
publication in 2008.

Unfortunately, in doing
so, the author

EXPLAINS nothing.

This criticism is perhaps
unfair, as many of the

issues in language acquisition are unresolved and open to interpretation; Ellis states as much in the introduction and offers his readers the task of forming their own conclusions.

Second

language acquisition?

Ellis subscribes to the belief that individuals will have highly idiosyncratic approaches to second language learning. The strategies that will be most effective for a student are influenced by a variety of factors on an individual and situational level.
