Study Guide For

~~Section 12 4~~

~~Percent Yield~~

~~Answer Key~~

~~Chemistry Matter~~

~~And ...~~

Now, we use the actual yield and the theoretical yield to calculate the percent yield.
Step 1: List the

Read Book

Section 12.4

known quantities
and plan the
problem. Known.

Actual yield = 14.9

g; Theoretical yield
= 15.7 g (from Part
12.11A) Unknown.

Percent yield = ?

~~Theoretical Yield
and Percent Yield
CK 12 Foundation~~

Percent yield
represents the

Read Book

Section 12 4

Percent Yield is the ratio between what is experimentally obtained and what is theoretically calculated,

multiplied by 100%.
$$\% \text{ yield} = \left(\frac{\text{actual yield}}{\text{theoretical yield}} \right) * 100\%$$

So, let's say you want to do an experiment in the lab. You want to

Read Book

Section 12 4

measure how much water is produced when 12.0 g of glucose (#C_6H_12O_6#) is burned with enough oxygen.

~~Percent Yield~~

~~Chemistry |~~

~~Socratic~~

The theoretical yield is what you calculate when you

Read Book

Section 12.4

do a calculation on paper or before you do a reaction in a lab. The actual yield will always be less than the theoretical yield because no chemical reaction ever reaches 100 percent completion. In a lab setting, there's always some

Read Book

Section 12.4

amount of error,
whether it's big or
small.
