Simulations Plus announced today a new collaboration to enhance ADMET Predictor, its preeminent property prediction platform for drug discovery.

Simulations Plus Enters New Collaboration to Enhance Machine Learning Models for Ionization Constants (pKa)  
A digital agronomist says many farmers are skeptical about the use of crop modeling to help pinpoint nitrogen application. David Chaffin with Yara says simulating nitrogen recommendations can allow ...

Understanding the adoption of model simulation for nitrogen recommendations  
Avery Design Systems today announced an expanded partnership to help customers accelerate NVMe-based SSD design and verification. The complementary intellectual property/verification IP (IP/VIP) ...

Mobiveil and Avery Design Systems Extend Partnership to Accelerate Design and Verification of NVMe 2.0-Enabled SSD Development  
Pittsburgh-based software and simulation company Ansys has been selected to provide its simulation technology for a new research project that is backed by \$10 million in funding from NASA.

Ansys simulation tech selected for NASA-backed sustainable jet fuel project  
Ansys (NASDAQ: ANSS) will support research led by the University of Central Florida (UCF) and funded by a \$10 million NASA University Leadership Initiative five-year grant to accelerate aviation ...

NASA-backed Program Selects Ansys Simulation Technology to Help Validate Pioneering Research on Aviation Sustainability  
Increases FY 2022 Outlook on ACV and Revenue in Constant Currency Details related to our financial guidance, including assumptions, are included in our prepared remarks document. GAAP revenue of \$473.
