For Visual Studio 2012, use Collapse and Sync - /vsgallery/291836cc-febe-44ad-86b0-b745485110e7. Adds three buttons to solution explorer. Select current item ; Collapse all ; Collapse all except current item ; Note: Make sure you turn off "Track Active Item in Solution Explorer" (Options -> Projects and solutions)

## *Solution Explorer Tools - Visual Studio Marketplace*

You can create solution-specific and project-specific settings through the right-click menu (context menu) of each solution and project: Solution-specific and project-specific settings are combined with the active Visual Studio settings. For example, you may have a blank project-specific settings file, but Solution Explorer is still nesting files. The nesting behavior is coming from either the solution-specific settings or the Visual Studio settings.
