Spontaneous Evolution: Our Positive Future (and a Way to ...

by Bruce H. Lipton, Ph.D., Steve Bhaerman. We ' ve all heard stories of people who ' ve experienced seemingly miraculous recoveries from illness, but can the same thing happen for our world? According to pioneering biologist Bruce H. Lipton, it ' s not only possible, it ' s already occurring. In Spontaneous Evolution, this world-renowned expert in the emerging science of epigenetics reveals how our changing understanding of biology will help us navigate this turbulent period in our planet ...

Spontaneous Evolution: Our Positive Future (And a Way to Get There from Here) Published on Feb 4, 2014 Read the first chapter of Bruce Lipton and Steve Bhaerman's book.

Spontaneous Evolution: Our Positive Future (And a Way to ...

In Spontaneous Evolution, Bruce Lipton and Steve Bhaerman cast a holistic new light, on an emerging new civilization. With just the right blend of spiritual humor and rock-solid-science, the authors lead us beyond collapsing economies and religious extremes to show us that such chaos is a natural step in an unfolding process, rather than the tragic end to a broken planet.

### Spontaneous Evolution - Hay House Publishing

As Margulis points out, evolution did not proceed by struggle, but by networking, an ongoing process that, according to the authors of this book, will happen in a similar way for our own destiny, not by producing a new species of man, but as a result of increasing levels of communal complexity and interrelationships
